More details about the course:

English IT is a practical English course created specifically for IT professionals. No “school” grammar – just real-life situations from the work environment: meetings, interviews, stand-ups, correspondence with clients, technical writing. The course will help you communicate confidently with colleagues, write professional messages in English, and pass an interview at an international company.

Course program

Block 1: Introduction and basics of IT English

- IT vocabulary: roles, positions, typical abbreviations
- Everyday English for teamwork
- Effective communication in Slack / Teams
- Listening and speaking exercises

Block 2: Team communication

- Stand-up meeting, daily sync, retrospective
- Asking & giving feedback
- Handling conflicts politely

- Practice: simulation of a team meeting

Block 3: Professional correspondence

- How to write emails, requests, responses to clients
- Structure of a technical letter and bug report
- Politeness and style of business communication
- Practice: writing an email chain between QA, Dev, PM

Block 4: CV, LinkedIn and interviews

- How to write an English CV and Cover Letter
- Professional profile on LinkedIn
- Typical questions at a technical interview
- Simulation of an interview in English

Block 5: Thematic dictionary

- Vocabulary for QA, Dev, Design, PM
- Software development lifecycle
- Agile, Scrum, Kanban — the language of processes
- Practice: task description, user stories, bug reports

Block 6: Presentations and Soft Skills

- How to present yourself or a project in English
- Storytelling: how to tell about your experience
- Public speaking for IT professionals
- Practice: final presentation of the project / yourself
